Dear Mike:

I wanted to write and express my gratitude for the excellent presentation that you gave at the Fall NYSCOSS Conference. The new laws surrounding the Initial Decision Maker (IDM) have great ramifications for School District projects and will be of tremendous benefit to schools in future work. The SPOTA regulations are also a daunting task that schools could use advice and assistance as they maintain the necessary records.

The information you gave on arbitration, mediation, litigation, and the WICKS law was also valuable to School District personnel.

All of this information is very valuable to Districts as they prepare for future construction projects. Thanks for all of your excellent information.

Sincerely,

James C. Fallon  
Superintendent of Schools
