Dear Jim,

We wanted to express our appreciation for the Survival in the 21st Century Seminar. The twenty plus project managers who attended the seminar gained valuable proactive actions which we have already implemented on our jobs.

This seminar will save us thousands of dollars through properly executing our jobs. Furthermore, this seminar is helping us to streamline our processes and communication methods which will prevent problems before they happen. The materials provided were excellent and will serve as a template for us to build our procedures with. The checklists help to make sure we cover all of the right areas on each contract.

Overall, this seminar was worth every penny we paid.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mark LoPresti', written over the word 'Sincerely,'.
